

Introducing Our 2017 HCEA Conference Keynote Speakers

We have three exciting keynote speakers for your educational enhancement and enjoyment. So that you can “meet” our speakers prior to the conference, we have included their bios below.

Kate Lorig, DrPH

Kate Lorig is professor Emerita Stanford University School of Medicine and is currently the Chief Science Officer for the Self-Management Resource Center. She is the primary author of twenty on-line and face-to-face small group interventions for people with comorbid conditions, diabetes, pain, cancer survivors, people with HIV, and caregivers. These programs are offered to approximately 75,000 people a year in 25 countries and are available in multiple languages. Dr. Lorig is also the author of several books and has more than 200 scientific publications.

Susan C Hull, MSN, RN-BC, NEA-BC

Susan is a nurse executive and informaticist who is passionate about co-designing technology-enabled innovations to dramatically improve healthcare delivery, population health and wellbeing. Her leadership experience builds on participation in the start of the healthy city/community, population health and learning health system movements.

Susan is an author, speaker and policy advocate for healthcare solutions that are mobile, personally connected, interoperable, personalized and mass customized. She co-leads the Alliance for Nursing Informatics Consumer e-Health task force, serves on the joint HHS ONC HIT Policy and Standards Committee's Consumer Health Advisory workgroup. Susan is an active member of the AMIA and co-chairs nursing policy with the Nursing Informatics Workgroup and will be chairing AMIA's Policy Invitational Fall 2017.

Erin Moore, B.S.

Erin is a leader in the effort to create a Learning Network for Cystic Fibrosis, which will bring patients, clinicians and researchers together to test existing and create new solutions and tools to better manage health and care and improve outcomes in the CF community.

She currently serves as a US Food and Drug Administration Patient Representative providing a consumer perspective on issues and actions brought before the FDA for review. She also sits on the FDA's Pediatric Advisory Committee. Erin has worked with the

Office of the National Coordinator for Health IT and the White House Office of Science and Technology Policy on the President's Precision Medicine initiative.

In September of 2016, Erin was awarded Health 2.0's 10th Anniversary Global Retrospective Award for Patient Activism. She currently serves as an executive board member for Stanford University's MedicineX Conference. Erin has spoken at the Institute of Medicine, AHRQ, Stanford University's MedicineX, The American Board of Pediatrics and the North American Cystic Fibrosis Conference.
